Universal Adobe Patcher 2.0 by PainteR [by Robert] 64 bit This is a free (!) utility to patch all those old Mac OS X and Windows releases of Adobe Photoshop, Corel Draw x3, Photoshop Elements and more... + Added support for CS6 and CC2015.1 CreateCloud-compatible versions of the above mentioned software. + Fixed bugs and incompatibility issues with certain 3rd party font library used in the Installer Package creation process for your application. + Added a new Batch Migration - ModifyInstallerPackage.bat + Added a new Batch Migration - Install.cmd Note: This app is no longer available as there are too many good readers to maintain it as well as the original authors. It is a UEFI-runnable, live CD style application that allows you to bypass the Adobe Program Manager and directly install Adobe's latest software releases (2014 and later) to your architecture of choice. Open the app, choose which version of Adobe you wish to download and follow the onscreen instructions for doing so. A US$99 product that allows you to install Adobe products selectively and/or share settings and presets with other users. This is particularly useful for those who wish to use all the same Adobe products but may only use the products in different combinations for different purposes.
